Camping

Daily fees at all campgrounds are \$1.50 for an unserviced site; \$2.00 for a site with electricity; and \$2.50 for a site with water, electricity, and sewer connections.

1 Campsites are allocated on a first-come, first-served basis and no reservations can be made. At most campgrounds, there is a limit on stay, usually of two weeks.

Group camping sites are provided in some parks and organized groups wishing to use these should write to the Superintendent to make a reservation. These sites may be used only by organized groups, such as Boy Scouts or Girl Guides, led by a qualified and responsible person.

Group camping-fees are 25 cents a day per person. Camping outside established campgrounds is not allowed, unless permission and the necessary camping and fire permits are obtained from a park warden. Camping in picnic areas or along the sides of highways and roads is not permitted.

The normal camping season in the national parks is from late May to October but the camping season is shorter in campgrounds located in the mountains.

All electrical services in campgrounds are 60 cycle. Trailers and camping vehicles equipped to take advantage of the services provided at the designated trailer sites are required to use these areas. Tents and other campers are required to use the other areas, which have been designed for this purpose. They are adequately equipped with picnic tables and barbecue grills for cooking over a wood fire. To prevent damage to the campgrounds and campers' property, wood fires are permitted only in stoves, grills, and fireplaces especially established for this purpose.

Information on camping techniques is provided in the booklet "Family Camping" available at 75 cents at park information offices or by mail from Information Canada, Ottawa.

St. Lawrence Islands National Park Mallorytown, Ontario
